<u>FAQs</u>	1. Why should I become an EA? Becoming an EA shows you are reaching to the highest level in our profession. "Enrolled Agent status is the highest credential the IRS awards..... Enrolled agents, like attorneys and certified public accountants (CPAs), are unrestricted as to which taxpayers they can represent, what types of tax matters they can handle, and which IRS offices they can represent clients before." (www.IRS.gov 'Enrolled Agent Information') Becoming an EA will help you better serve your clients and potential clients. 2. What is the difference between the SEE and the AFTR course test offered for the Annual Filing Season Program? Participants in the Annual Filing Season Program must complete an Annual Federal Tax Refresher course followed by a knowledge-based comprehension test administered at the end of the course by the CE provider. Upon completing the AFTR course, passing the AFTR exam, and earning at least 18 hours of Continuing Education each year, the participant receives an AFSP-Record of Completion. Successful AFSP participants have limited representation rights for clients whose returns they prepared while holding AFSP Records of Completion. The SEE (Special Enrollment Examination) is a 3 part intensive and extensive test. It is <i>not</i> an open book test. The 3 parts of the SEE cover Individual Income Tax, Ethics, Business, Estates, Trusts, and Representation. By passing the SEE, an individual demonstrates in-depth knowledge of tax matters. Upon passing all three parts of the SEE, candidates may apply for Enrolled Agent status. Enrolled Agents have unlimited representation rights, even for clients whose returns they did not prepare. Enrolled Agents are required to earn a minimum number of continuing education hours each year to maintain Enrolled Agent status. AFSP participants who have passed Part I of the SEE within the past three calendar years are exempt from taking the AFTR course and exam, although they must still meet a minimum number of continuing education hours each year. 3. What if I don't pass the Special Enrollment Exam (SEE)? Gleim provides guarantees that you <i>will</i> pass all three parts of the SEE provided you do your part in studying and attending classes. 4. Tell me about the Gleim guarantee? Gleim offers continued access to their online materials until you pass. There are certain participation requirements in order to qualify for the guarantees, which are outlined in an earlier section. See "Guarantees" section. 5. Is the course difficult? Yes. <i>The course is very intensive.</i> For success, all students should have sufficient prior knowledge and/or experience in taxation (see FAQ # 7) and be prepared to put in sufficient time and effort before classes to get the most out of the course.

FAQ's continued

- 6. How much time should I plan to spend on study and preparation for each class?** You should devote as much time each week as you need to review the study units to be discussed at the next class including online quizzes as well as IRS forms and publications. Most students find they *need* a minimum of **at least 5 to 7 hours** of preparation time ***each week before class*** to get the most out of each class to successfully pass each part of the SEE.
- 7. Your email announcement stated that it is strongly recommended that a person have at least an intermediate knowledge of individual & business taxation. What do you mean by 'Intermediate' knowledge? And do I need to know how to prepare a business tax return to take the class?** Having prepared business returns would certainly be advantageous but it is not a requirement for taking the class. We would define an intermediate knowledge of taxation as having at least a ***good working knowledge*** of:
- BASIS, DEPRECIATION, CAPITAL GAINS & LOSSES, CASH METHOD VS. ACCRUAL METHOD, SCHEDULE C, AMT**
- 8. Why are the classes taught in the order Part 1, 3, and 2?** Most students find Part 2 to be the most difficult part of the SEE. Taking it last allows you to successfully complete 2 of the 3 parts before focusing on the hardest part. It also allows you to take extra time, if needed, to prepare for Part 2 without falling behind on the other material.
- 9. Why should I take your class instead of taking other online prep classes?** All of our successful students agreed that attending the classes kept them focused and on a study schedule. They were less likely to procrastinate, get distracted or even give up. Interaction with a live teacher, whether online or in a physical classroom can provide clarification that may be absent in the self-study environment. Attending a class with live instruction gives you the opportunity to learn from your instructor and classmates with additional information, examples, and real-life experiences.
- 10. What if I have to miss a class? Can I make it up or is there another class I could attend?** You are more than welcome to attend another class at any of the locations where classes have formed. Online classes will have the opportunity to review the class missed since classes will be recorded.
- 11. When will I receive my Gleim material & online access?** The Gleim material is shipped and online access is made available to the student once the class is confirmed or if the student requests the Gleim program immediately. A class is generally confirmed when 5 or more students have registered for it. If you would like to receive your Gleim materials before the class is confirmed, please initial the appropriate line on your registration form. Once you receive your Gleim materials we cannot refund the money for Gleim but your cost for the Gleim materials is the standard retail cost plus shipping.
